

# New Alarm function in the SoraJikoku!

- Sky Timer (AKA PlayTimer) -

## Won't sound alarm?

## Not occur vibration?

We don't know time is now, But vaguely,  
I can receive notification that the time has come.

...that is the timer.

People who not act exactly the time, Or spending a peaceful time.

Or for those who want to spend such a special time.

\*This is the alarm timer can also be used in places where sound is not put out. Handicap of ear also available.

"SoraJikoku BASIC" which was released last month, has been upgraded to 1.2.0 by adding new function using the SoraJikoku Engine "Sky Timer" (AKA Play Timer).

Use of Sky timer example:

- Drink to time management in pub.
- In creative work.
- The eye mask to wake-up support of nap by attaching a smartphone.
- Other, To invite interesting usage! ( Twitter Hashtag #SoraJikoku )

How to use:

First specify the time, choose a sunrise or sunset. After that, keep to your view.
